

## Hard Rock Café

Among the skyscrapers, nestled next to the Heartbreak Hotel, the legendary Hard Rock Café stands as its own Manhattan attraction. Whether this is the twelfth stop on your world tour of Hard Rock Cafés, or you just have a hungry heart – at the Hard Rock New York, you just might find, you'll get what you need.

This living museum of rock 'n roll is dripping with all your favorite rock-band memorabilia from the '60s to today. While your eyes will never get tired scanning autographed guitars, authentic costumes and photos of famous visitors – your tongue will be on a stairway to heaven. Featuring in-house smokers that create slow-cooked, succulent ribs and chicken, and our handmade 10oz. Legendary Burgers, the Hard Rock New York will leave you planning your next event with us.
